"Create a captivating and realistic 2D illustration of the side profile of the Toyota 2000GT, inspired by the unique description provided. The illustration should reflect the elegant and iconic design elements of the historical model, infused with a touch of pixel art style. Pay meticulous attention to detail as you bring to life the long, sleek hood extending fluidly towards the rear of the car. Emphasize the round headlights, radiator grille, and the overall modern yet sophisticated expression at the front. The wide and rounded forms of the glass surfaces should convey a sense of spaciousness within the car's interior. The rising roofline above the windows accentuates the dynamic and flowing appearance of the vehicle. Focus on the fine details and graceful lines that contribute to the striking aesthetic of the Toyota 2000GT. The rear design should echo the overall balance and elegance, with rounded forms and delicate lines enhancing the sophistication of the taillights and design accents. Infuse the pixel art style with a realistic touch, capturing the essence of the Toyota 2000GT's forward-thinking and modern aesthetic. The result should be a visually appealing and memorable representation of this remarkable historical automobile."
